Experience

Freelance Web Designer & Multimedia Producer 2020 - Jan. 2026

Independent Contractor

- Designed and optimized e-commerce layouts, custom graphics, banners, and product pages for a global clientele (1,400+ contracts, 4.8/5.0-star rating).
- Developed front-end interfaces using HTML, CSS, and responsive styling to ensure seamless compatibility across desktop, mobile, and tablet devices.
- Implemented on-page SEO best practices and page speed enhancements (PBR texture rendering, asset compression, image optimization) to improve organic search ranks and site load speed.
- Collaborated with business owners to translate visual brand guidelines into high-converting promotional banners and custom visual assets.

Media Operations & Digital Asset Manager Aug. 2023 - Present

Wilfrid Laurier University Athletics, Waterloo, ON

- Captured, edited, and managed digital assets for university athletic promotions and media events.
- Structured digital asset catalogs and content directories, optimizing search tags for web distribution.
- Maintained visual design assets and promotional materials consistent with university brand guidelines.
- Monitored digital content compatibility, ensuring layout consistency across university communication portals.

Co-Founder & Video Content Producer May 2021 - Dec. 2023

CLSO Media, Brampton, ON

- Co-founded a visual media production partnership generating \$30K+ in annual revenue, delivering visual branding and content designs for regional clients.
- Formulated graphic assets, digital banners, and landing page layouts utilizing Adobe Photoshop and Illustrator.
- Integrated automated pipelines to scale custom media deliverables, ensuring rapid client delivery under tight deadlines.

Web Design Projects

captainsolo.ca - Responsive Portfolio Command Center | *HTML5, CSS3, SVG, Visual Branding* 2025

- Programmed, designed, and deployed a custom personal portfolio site using clean, semantic markup and custom CSS.
- Configured responsive layouts, flexible grid systems, and transition animations, optimizing cross-browser accessibility.
- Achieved high page speed performance by utilizing optimized image loading, web fonts, and clean file structures.

StudyOS - Interactive Dashboard Interface | *React, TypeScript, CSS, UX Design* 2025

- Engineered a responsive web dashboard with a strong focus on interactive UX design, custom icon sets, and dark-theme aesthetics.
- Programmed custom CSS layout matrices and mobile-first scaling behaviors to ensure readability across all screen sizes.
